

Dr. Christiane Kuhn (2019-03-18)

Christiane Kuhn is a senior research associate and lecturer (Akademische Oberrätin) in the Department of Business and Economics Education at Johannes Gutenberg University in Mainz, Germany. She earned her doctorate with highest honors in 2013 with a project on the valid assessment of pedagogical content knowledge of pre-service and in-service teachers in business and economics. For her doctoral project, she received a three-year scholarship from the German Federal Ministry of Education and Research (BMBF), which is awarded to outstanding young scientists in the field of empirical education research, as well as two research awards. For five years, she worked on the coordination project of the BMBF-funded research initiative “Modeling and Measuring Competencies in Higher Education (KoKoHs)”. Since the beginning of 2016, she has been a project leader of the BMBF-funded project ELMaWi, which focuses on the assessment of subject-specific competencies in university teacher education in mathematics and economics using innovative technology-based assessment designs. This quasi-experimental validation study is being conducted in cooperation with IPN – Leibniz Institute for Science and Mathematics Education at Kiel University. Among others, she is currently conducting a feasibility study to adapt the innovative assessments for pre-service teachers in business and economics to teaching practices in the USA. Her engagement for a sustainable transfer of scientific findings into teaching in higher education was awarded with an innovative teaching prize.
